

THE WISDOM CORRIDOR PROJECT

AVONWORTH HIGH SCHOOL

Overview

The Wisdom Corridor project at the Avonworth High School was executed by the Partners Media Art class. Partners Media Art stands out as a distinctive classroom environment deliberately comprising students with disabilities alongside their student buddies.

Collaboratively, Partners conducted interviews, captured headshots, and designed individualized templates for each quote. Reflecting the inclusivity of our class, we opted for an equal distribution of quotes sourced from both teachers and students. Additionally, each quote was accompanied by translations in various languages and braille to ensure accessibility for all.

“What we loved”

“The most rewarding aspect of this experience for me was the opportunity it provided to showcase and highlight the exceptional skills possessed by my students through their involvement in the project.”

-Tiffany White, High School Life

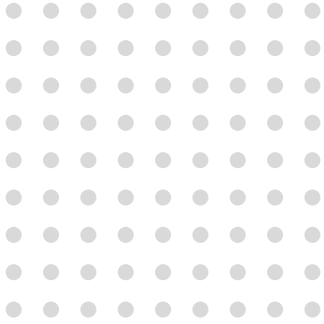

“It was a pleasure working on this project. Seeing the students photograph and interview the teachers they connect with was very exciting. Watching them record their words of wisdom and discussing with each other their thoughts on each was cool. Then helping them decide which font and colors would best represent each person and bringing it all together was a great end to a really neat project!”

-Shelby James, High School Art Teacher

MR COFFIN'S QUOTE

"We should do three things every day of our life. Number one is laugh. You should laugh every day. Number two is to think, we should spend some time in thought. And, number three is you should have your emotions moved to tears."

Jimmy V

”

“

Para mí, hay tres cosas que todos deberían hacer todos los días. El número uno es reír. El número dos es pensar: dedicar algún tiempo a pensar. Número tres, deberías tener tus emociones conmoviéndote hasta las lágrimas.

Jimmy V

”
