

THE WISDOM CORRIDOR PROJECT

# AVONWORTH PRIMARY CENTER

## Overview

Our Wisdom Corridor is filled with life lessons from children to grandparents as documented through our youth. A life lesson is a short message that people can use to teach a lesson they know, as learned through storytelling, interviewing, and documentation. Our JAM students interviewed the teachers of the Primary Center and asked them the following question - what are your best words of wisdom? These students were ages 5-9. We took the teachers' words of wisdom, recorded the teacher saying the words, took a picture of the teacher, and framed the information. Among some of the best advice - "Never give up on your dreams." Our frames are hung low so our young student population can access the QR codes with their iPads.

## “What we loved”

"The Wisdom Corridor Project has had the most impact on my teaching career. It's so incredible to really get to know people that you thought you knew. Our Wisdom Corridor helps me to be a better person each and every day."

**-Maureen Frew, Educator**

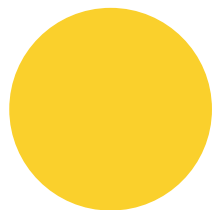

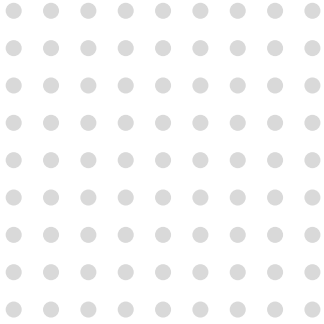

"I have enjoyed being a part of the learning process in which our students are able to connect and talk with their teachers. It is extremely inspiring to hear the conversations that are happening and the passion everyone has for the project."

**-Scott Miller, Principal**
