

THE WISDOM CORRIDOR PROJECT

# BEAVER AREA MIDDLE SCHOOL

## Overview

At Beaver Area Middle School, a group of 7th and 8th-grade students, with the guidance of Language Arts teacher Mrs. Diamond Linn and Social Studies teacher Mr. Ryan Hulme, created a Wisdom Corridor. They asked teachers three important questions then selected the best answer of the three.

The students then turned the teacher responses into posters with QR codes linking to the interviews. This interactive display offers valuable advice and is set to grow each year with new contributions from students and staff.

## “What we loved”

“Working on this project has been extremely rewarding for me. It may be the most rewarding experience I have had in my career so far. Working closely with my kids on a project outside of my content area has helped me learn so much about that. We had such a great time, and my colleagues were so pleased with participating in the interviews!”

**-Diamond Linn, Educator**

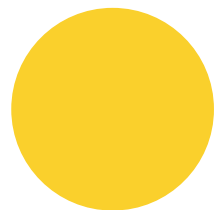

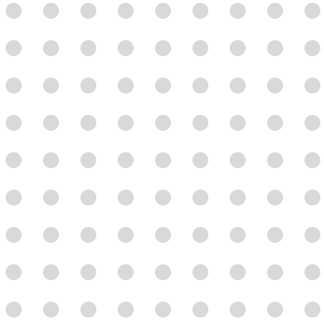

"Through Beaver Area Middle School's work on the Wisdom Corridor, I have seen both students and teachers step up into leadership roles. This project has allowed both of these stakeholder groups to positively contribute to our school culture through the creation of our Gallery of Wisdom. Moreover, it has encouraged our teachers and students to engage in more personal conversations that build relationships and go beyond the curricula. I am very much looking forward to seeing this work continue to flourish here in our middle school."
