

THE WISDOM CORRIDOR PROJECT

EHRMAN CREST ELEMENTARY SCHOOL

Overview

Ehrman Crest Elementary was designed to be a learning tool itself. Our Wisdom Corridor compliments our building in a beautiful way by serving as a mosaic of life lessons spanning generations, meticulously curated by some of our Ehrman Crest Elementary 2nd graders. Each life lesson, embodies the wisdom gleaned from our staff's diverse experiences, shared through the art of storytelling, interviewing, and thoughtful documentation. This corridor ensures that for students and staff, every stroll is designed to make learning a continuous, immersive journey.

“What we loved”

"Observing the insights, reflections, and growth of our second graders is itself a profound lesson. It's a reminder of the innate wisdom that children possess and the value of nurturing their development through innovative educational projects like the Wisdom Corridor. The product is certainly something to be proud of, but the learning is in the process."

-Tresa M Amoscato, Assistant

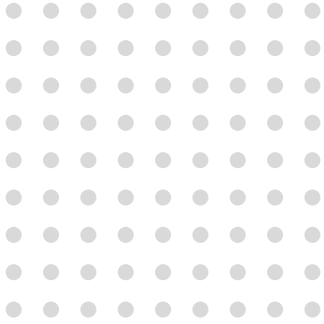

"As I facilitated the Wisdom Corridor project within my student group, I saw many things emerge. First, I witnessed the students find their inner voice and use it to project goodness. They met and talked with teachers and staff that they might not have interacted with usually, and they allowed themselves to take the front seat in a role that is usually set aside for older children. They learned about life lessons and how much value there is in listening to others and their life story."

-Amanda, Teacher
